

MONASH UNIVERSITY Design & Architecture Info Day

Are you interested in undergraduate or graduate studies in Design, Architecture or Urban Planning and Design?

Going to university can begin your journey towards a lifelong creative career, but it can feel a bit intimidating at the start. So, we've put together a special session where you can ask us everything you ever wanted to know about studying Design & Architecture at Monash University, including our courses, international opportunities, accommodation, scholarships, how to apply, and where your degree can take you.

Dr Gene Bawden, Deputy Head of Design Department, and **Professor Diego Ramirez-Lovering**, Professor in Architecture, will be joining the session to review any portfolios of prospective students in-person.

The session is free but places are limited so registration is required.

MONASH UNIVERSITY Design & Architecture Info Day

Sunday
08 July 2018
1.00 pm - 4.00 pm

Hilton Singapore
Malaysia Room (level 5)
581 Orchard Road
Singapore 238883

At Monash, you not only learn the theory, but how that theory applies in the real world – because a great idea is only truly great when it's realised. Here's Design graduate Jonathan Liow with Solarball, a product he created to help the 1-in-8 people in the world who don't have access to clean drinkable water.

Architecture students tackle a variety of real-world design projects, from the future of housing to public buildings to water sensitive cities. Image: Luke Pupillo

In Design, you'll learn the latest software and explore a variety of technologies such as 3D printing, web and mobile apps, and virtual reality. Image: Amirul Nasir
